Date of Event:
February 8, 2017

On February 8, 2017, Cumberland Contura, LLC, a subsidiary of Contura Energy, Inc., received an imminent danger order issued by the Mine Safety and Health Administration (“MSHA”) under section 107(a) of the Federal Mine Safety and Health Act of 1977 to the Cumberland Mine (the “Mine”), located near Waynesburg, Pennsylvania. The order alleged that explosive levels of methane were observed in an area of the Mine. Adjustments were promptly made to the Mine’s ventilation system, and the methane was diluted and rendered harmless. No injuries occurred in connection with the alleged condition, and MSHA has terminated the order.
